Inter Ocean's Chief Makes Charges House Would Wish Investigated Before Traction Bills Are Finally Disposed Of.

SPRINGFIELD, Ill., April 24.-Until the committee appointed by Speaker Miller to investigate the charges of bribery has reported and George W. Hinman of Chicago has been summoned before the bar of the house, to prove similar charges, published in the Inter Ocean, no action will be taken on any of the traction bills. This was determined upon by the anti-Miller forces today, and they carried it through by the passage of the Hinman resolution.

The opponents of the Miller faction firmly believe no proof of bribery will be forthcoming.

Calm Succeeds Storm.

The seasion opened this morning amid yesa calm after the storm of terday, although there was a decided undercurrent of feeling against Speaker Miller which threatened to break out again if anything similar to the tactics of yesterday was attempted.

The chief interest in the traction question centered around the appointment of the committee to investigate the bribery the members of the committee this morning and none of his followers would give out the names if they knew them.

The members opposed to Miller flatly declared that they did not believe there was enything in the charge and announced their intention of pushing home the matter in such a way that he would be compelled to prove his assertion or admit that he could not make it good.

In accordance with an agreement reached this morning between the two factions, no effort was made to approve the journal of yesterday and the proceedings of yesterday were left open.

At 10:20 Mr. Lindley asked the unanimous consent of the house for the consideration of the Lindley bill and requested further that the consent should cover all the amendments. The consent was obtained and Mr. Lindley entered upon an exhaustive

While he was speaking, Representative ine by calling a point of order on the length of Mr. Lindley's speech. Schlagenhauf, however, was induced by his friends to withdraw his objection and Mr. Lindley continued.

Later Mr. Schlagenhauf again rose, say-Mueller bill and he thought the honor of the house required that such charges be investigated before any action was taken or investigated before any action was taken on the bill. He then submitted a resolution calling for the investigation charges made by George W. Hinman of Chicago, publisher of the Inter Ocean.

The resolution, which calls for Mr. Hinman's presence in the house not later than Tuesday, was adopted unanimously, eight nembers being absent and not voting. Representative Morris introduced esolution ordering an appointment of a committee of five to investigate the charges of attempted bribery which were made yesterday by Speaker Miller. It was adopted and the speaker named Representatives

to constitute the committee. All are per-

sonal friends and adherents of the speaker. The omission of Mr. Rinaker's name, ho, on Thursday moved the appointment of the committee, stirred the anti-Miller Apople to wrath, and Clarence S. Darrow of Cook county, moved that the committee be increased to eleven and that Representatives Rinaker, McKinley, Trautmann Bundy, Shurtleff and McManahan be made

KING WILL VISIT THE POPE Edward is to Start from British Embassy When Going to Vatican.

ROME, April 24.-Great satisfaction is felt at the Vatican at the official announcement that King Edward will visit the pope, although some arrangement by which start from the embassy for the Vatican would have been preferred.

The concession that his majesty start from the embassy met with strong opposition from some of the Vatican advisers and was only overcome through the personal intervention of the pope, who said he would not allow details to interfere with a meetcharges. The speaker would not announce ing which he most desired, as he wished to maintain with King Edward the same good relations and friendly intercourse he had had with his mother.

At the Quirinal, where the point is always made not to interfere with the relations guests desire to maintain with the pope, it is remarked that the Vatican, in allowing King Edward to start from an embassy accredited to the king of Italy, a concession hitherto constantly refused, has created a precedent that may in the future prove embarrassing to the holy see.

CATTLE DIE OF STARVATION Veterinarian

Trouble in the Range Section.

TOPEKA, Kan., April 24.- (Special Telegram.)-Within the last two months the Kansas Live Stock Sanitary commission here has received many complaints from cattlemen in the northern and western part of the state to the effect that their cattle are dying of a mysterious disease. Many of the writers declare that the disease is mange and that it has come into the state from Colorado, and others have other names for the trouble. Dr. N. S. Mayo, state veterinarian, has made investigations of several cases and in his report to Governor Bailey he says:

"I find that the greatest trouble with the cattle dying on the western Kansas ranges is starvation. There are no complications in the trouble; it is just a lack of food. The winter in that section of the state has been severe and the cattle have been poorly fed and sheltered. The spring has been backward and they are now unable to regain their strength on the ranges. Very few well fed cattle are dying.

The president began his address by thank- 12 m 53 ing the people and the soldiers for his enjoyable two weeks' holiday, and then spoke of the natural wonders of the park. He said:

"The Yellowstone Park is something absolutely unique in this world as far as I know. Nowhere else in any civilized country is there to be found such a tract of veritable wonderland, made accessible to all visitors, where at the same time not only the scenery of the wilderness, but the wild creatures of the park are scrupulously preserved as they were, the only change being that the same wild creatures have been to carefully protected as to show literally astounding tameness.

"The creation of such a natural playground in the midst of our people is a credit to the nation, but above all to Montana, Wyoming and Idaho. It has been preserved with wise foresight. The scheme of its preservation is noteworthy in its essential democracy. This park was created and now is administered for the benefit and enjoyment of the people. The government must continue to appropriate for it especially in the direction of completing and perfecting an excellent system of driveways. NEW YORK, April 23.—George F. Baer was the chief witness before the Interstate Commerce commission today.

He said about 63 per cent of the mining properties in the authracite region was owned or controlled by the Philadelphia 4 p. m..... 48 and Reading company and about 21 per cent of the coal produced was produced by it. Mr. Shearn read from the Pennsylvania statutes showing that companies incor-B p. m..... 46 porated as carriers were deferred from mining or manufacturing and asked if the

It was immediately after the 10 per cent advance to the miners in 1901. The agreement raised the percentage from 60 to 65 per cent for the operators, who in their turn were to turn over the whole output of their mines to

Illinois Act Prohibiting Agents from Furnishing Men to Warring Employers Declared Invalid.

SPRINGFIELD, Ill., April 24.-The su-

reme court today held that the Free Em-

ployment Agency act passed by the legislature in 1899 is unconstitutional. A suit was appealed from the criminal court of Cook county by Murray Matthews, who was convicted of violating the act by failing to file with the secretary of state a bond of \$1,000 to conduct an employment agency. The constitutionality of the act was attacked on section 8, which provides that agents shall not furnish employes in cases of strikes or lockouts. The court holds that this section is without rational basis
